

To the People of Uganda,

We have received a request from Ssemakula Peter Luyima, Chairman-Founder of WASART Africa Youth Movement, to provide additional information about our opportunity for the leaders of the People of Uganda. Peter has been a great encouragement to us, and we thank him, his people and his leaders in the government of Uganda for having an interest in our endeavor to get our technology with Oxysilver to the People of Africa.

We are endeavoring to find someone in Africa to invest in a manufacturing facility in Africa. Peter has worked hard to help us with this endeavor. Peter informs us that leaders in Uganda are encouraged by the good news we have, and we want to assist in helping in any way we can. Thanks to Dr. Leonard Horowitz, Peter has been directed to us to assist with more detailed information to get Dr. Horowitz's Oxysilver in Africa in the best manner, and that is a facility there to manufacture the product for redistribution. For those that have a sincere interest in this endeavor we have an offer to share with them.

The following is an offer to the People of Uganda to obtain a right to purchase Burk-Elder Hale's Bionaid formulation, marketed as Dr. Leonard Horowitz' Oxysilver, from AuH2O Holdings' new BioAquatic Ltd. facility designated to be opened in Africa. The People of Uganda willing to purchase one million dollars a year of product at the rate of \$16.5K per 55 gallon drum may be the sole distributor for product made from this facility in Africa. A percentage of the proceeds will be going to the ministries of Dr. Leonard Horowitz and Rev. Burk-Elder: Hale, Third.

\$825K must be paid in advance for product. The facility will physically take three and a half months to bring online from the date of the advance purchase. \$49.5K of product may be acquired from the US facility immediately at the buyers option. Should the minimum order value not be met after each twelve month period of operations then BioAquatic Ltd. will be free to make sales from the facility directly into the African market.

For more details contact Goldwater Holdings President, John Thomas Kreitzer at 602-334-3741. Thank you for your interest in this endeavor. May God help us succeed together.

Sincerely,

Burk-Elder: Hale, Third.
