

# ZION African Youth Alliance Mission Statement

The mission of ZION African Youth Alliance, the youth outreach mission, focused on food and health issues, of the Zion Church of Christ in Africa, is to bring the Kingdom of Heaven into clearer view by bearing fruit consistent with the sacred teaching of Faith, Hope and Love (Charity). Love gives. Love rules. Love endures. Love gives us Hope and encourages us to Trust in Good Faith.

An early Christian assembly in Greece in the first century shared a parable that gives us some perspective. It was recorded as follows:

*There was a man who died and was being taken to Heaven by angels. The angels said to him, "We are going to take you to Heaven, but first we are going to show you hell."*

*The angels then took him to a place where there was a great bowl, so great that it was as big as a lake. The bowl was filled with a nutritious stew. All the way around the sides of the bowl were people. Emaciated, starving, miserable people. These people had spoons to eat the stew with and the spoons were long enough to reach the stew (about 12 feet). The trouble was, while they could scoop up the stew into the spoon, they could not get it into their mouths because the spoons were too long. So here were all these pathetic people, suffering and moaning in agony, constantly trying to eat the food that was abundantly in front of them - all in vain.*

*Next, the angels took the man to Heaven. To his surprise, he saw the same scene! There it was, a giant lake-like bowl of the same stew surrounded by people with 12 foot long spoons. Yet something was different here - all the people were smiling, happy and healthy looking!*

*"Why? What is the difference here that these people are happy and well fed?", the man said to the angels.*

*They replied, "Have you not eyes to see?". The man looked more carefully, and observed that one person would scoop up the stew, and bring it to the mouth of another. Then someone else would scoop up the stew and feed it to the other.*

*The angels smiled and said, "Here the people feed each other. Here are the people that learned the way of Love."*

I think now that you are beginning to see what ZION African Youth Alliance is about. We are here to share with each other, to give to one another. In the giving, we are rewarded, and many are fed. We show our Love. With that said, it should be stated that we are not here to make an exhibition of our alms, but we are here to see the examples set by others, and be encouraged to participate. If you are not here for this, then you are asked to leave, and return again when you are.

ZION African Youth Alliance is an outreach mission established to provide food and clean water or other provisions to the needy through the network of loving, supporting and caring Members in the Commonwealth of the Kingdom of Heaven and the Freewaves televised virtual network which unites us. Through our endeavor to get the latest scientific breakthroughs, like Bionaid and Zeoheal, to the public through various programs under the direction of ZION African Youth Alliance, we hope to get the news out and raise awareness of the blessings our Heavenly Father has provided to us. I am most grateful to [Burk-Elder: Hale, Third](#) ZAYA American Director and Co-Founder, for his vital work that has made this possible.

ZION African Youth Alliance membership on iGrOOps will always be free to Freewaves network Members, and is provided as a free platform for our members to get acquainted and focus on the ZION African Youth Alliance endeavor through televised communications and the other quality applications provided by iGrOOps, and for members to share the many things that interest them and other members. [Click here](#) to join. If you would like to see a demonstration of the video/audio conferencing features available on this website [click here](#). iGrOOps provides Freewaves with all the latest televised applications.

We are extremely grateful to Bo Bennet and iGrOOps for assisting us, saving us thousands of dollars, in this philanthropic endeavor to assist the needy. The iGrOOps platform provided is an extension of the Freewaves.tv website.

The ZION African Youth Alliance and the Freewaves network is a private association of consenting individuals who willingly and knowingly have come together for charitable purposes. Participants have chosen to exercise their right to freely give to others who have joined with the same purpose and understanding. Access to the Freewaves website and participation in the activity are by direct, personal invitation only. If you have been invited to view the website, you are a special person indeed and have been given a tremendous gift, perhaps far greater than you can imagine.

You may find information about things that interest you because of the fellowship and gathering of the Members that share information with participants, and you may also find abundance for you and yours because of the charity we share in the Commonwealth that provides a measure of sanctuary and abundance for those that seek the Kingdom of Heaven above all things. The Commonwealth provides us with a means to become disentangled from the world chaos, greed, misery and worldly ways that ensnares us and soils our spiritual garments.

Love Rules,  
Brother Frank
